Weight Transmitter **DAT 200 Ethernet**

available with certification • UL • EAC

General information

PVS20320200511

The weight transmitter DAT 200 Ethernet has high performance and long-term reliability. The configuration and calibration can be set up directly from the front panel. The small width dimensions allow to place a large number of transmitters inside the electrical automation panels. The weight transmitter DAT 200 Ethernet has an interface with intrinsically safe barriers for use in hazardous areas. The weight transmitter DAT 200 Ethernet can be customized according to customer needs. It has two red status LEDs, 3 mechanical buttons behind the red door and screw terminal blocks.
