

General information

PVS5020200513

The P SPRX pin load cell is made of stainless steel and offers maximum resistance to impacts and overloads. The operation of the P SPRX load cell is double-ended shear beam. The P SPRX cell is insensitive to side loads and it has been designed for shooting, weighing or anti-overhead systems for overhead cranes. The P SPRX pin load cell can be customized and it has a "high temperature" version.
